Report on Expert Session

Date: 12 July 2018

Time: 11.00am-12.30pm

Speaker: Mr. Satish Ranade, General Manager, Financial Services, Wipro

Topic: Industry Expectations from Fresh Graduates

The expert session on "Industry Expectations from Fresh Graduates" was organized by BBA Dept. Mr Satish Ranade, General Manager, Financial Services, Wipro, addressed students of First year BBA, BBA(CA) and BSc(Computer Science).

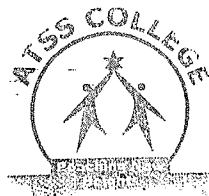

Mr. Satish Ranade, described with simple example various new business models coming up like OLA, UBER, AirBnB. He explained, how these models have changed the business scenario and manpower requirement. He thrown light on the current business scenario. The companies are having strict budget restrictions and they need to 'Change the business' to 'Run the business'. Companies have to give more focus on customer service and fulfilling their requirements.

Survival of business depends on some essential characteristics of product-

- Cheapest
- Fastest
- Latest
- Easiest

Continuously changing and improving technology has already made many best selling products, obsolete. Sir explained the concept of 'Disruptive business practices' with the example of Kodak camera, Canon camera and camera in Samsung mobile phone. Students got to know how high level automation in companies is decreasing manpower requirements and AI Machines are replacing people.

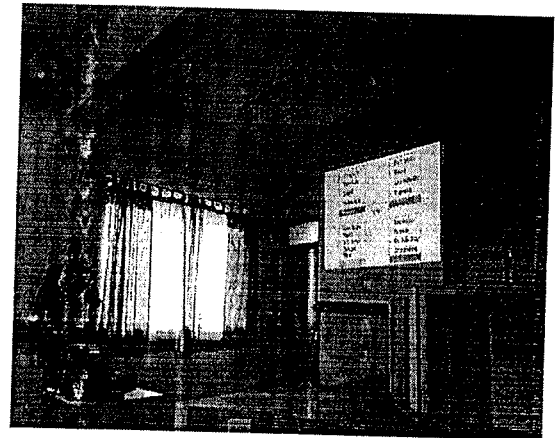

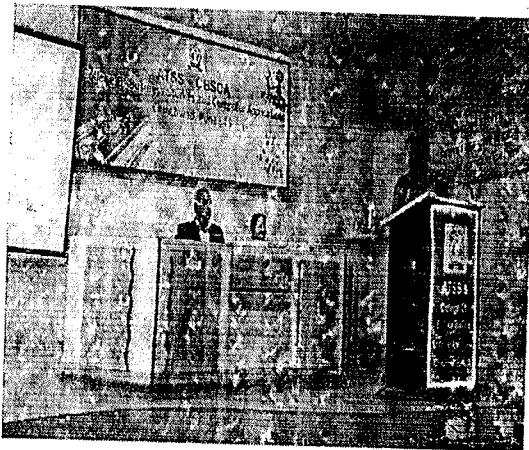

So in this scenario if students want good opportunities of placement they will have to take special efforts to make themselves employable. He shared the industry expectations from fresh graduates on 4 important skills.

- Ready to deploy
- Quick learners
- Technology aware
- Team players

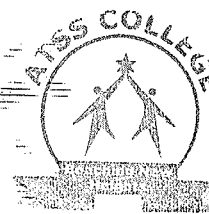

With these inputs students were really motivated for facing the new challenges in the competitive world. Students were very happy to have such expert session in the very beginning of their Degree education.

The session concluded with vote of thanks by Ms. Anita Mathapati.
